

NOTICE TO COUNSEL AND UNREPRESENTED PARTIES

- The Northampton County Court requires all counsel to formally enter and withdraw his or her appearance as defined in Local Rule N1012. The automation of several court activities uses the entry of appearance to notice counsel of various events associated with the case.

Failure to personally enter an appearance on behalf of a party will not permit an automated notification to alert counsel of future events affecting a case.

Conversely, failure to formally withdraw as counsel of record will have the system continue to generate unnecessary notifications to an attorney, despite not having further involvement in a case.

Your cooperation in insuring the court dockets contain accurate and current information is appreciated.

- **Effective immediately**, all Applications for Continuance of matters scheduled for pre-trial conference, argument, non-jury trial, trial, or arbitration must be in writing with copies to counsel and the Court Administrator. In order to maintain a more accurate control over the civil inventory, it is essential that a copy of any continuance request be sent to the Court Administrator.
- To assist the Bar, a printed form of the Application is available in the Court Administrator's Office and its use is encouraged.
- If you are representing yourself, you must appear at the call of the list as noted on page 1 (top right corner) to report whether the case is ready to be tried.
Failure to appear at the call of the list will result in the case being stricken, dismissed, and removed from the trial list.
- Should the case settle, please report it Court Administration immediately.
- **The following Court lists are available on the Court's website at www.nccpa.org.**
